I you want to play an Escape Goat, pick the first one. This one has better graphics, music, some new mechanics, but those same mechanics didn't get enough testing which turns some puzzles into a frustration exercise. Even so, it still is a great game. But I would only recommend it to those who already completed Escape Goat 1 and are looking for an extra challenge.
. I am very glad I only paid half price.

The movie pitch conceit is cute, but all the meta-commentary gets old pretty fast and, worst of all, commits the cardinal sin of interfering with the game play. The zombie enemies are fine, but I'd have preferred a more open environment to get used to them. In fact, overall I'd have preferred the same map as Far Cry 5 but populated with zombies instead of cultists. If they ever decide to make that game, I'd buy it.

It has its moments, but generally the entire time I was playing this game I kept thinking how much better Dying Light's climbing mechanic and overall approach was.

I've been a Steam user since it began, and this my first review. If the other two sections of the DLC are as disappointing as the Zombies game, then this will be my first return as well.. I don't understand this game at all. Ultimate management? All I got to do was purchase fuel and change prices in the cafeteria etc. I wish I spent my money on something else. I spent 27 minutes "playing" this game, and nothing ever happened except that I could see from my finances that I sold snacks to passengers which I never saw anything of. Watching the terminal inside is so unnecessary when it's premade and nothing happens! I never found out if I could speed up the game. The clock counts seconds in real-time. My first flight was departing at 9:35, and the time was 8:40. I could just not stay an hour watching just to see it depart. I respect that making games takes hours and hours, but this is just too narrow with uninteresting extras. Who wants to purchase fuel and run a power plant if you're interested in just managing a busy airport (which you made busy by playing)? The time everything takes reminds me of free iPhone games. I would recommend Airport Inc./Tycoon 1. It gets so god damn annoying after a couple of hours playing but it's entertaining for the first two hours at least.. doesn't work

. Yet again I was lucky to stumble on another gem of a niche game. Was very intrigued by the game plot, and sacrifice/traitor mechanics, when watched the trailer for handheld console many years ago. Was even thinking of buying handheld to play it along with some other exclusives, but as the time goes, more and more handheld exclusives find their way to PC platform, for which I'm really grateful. Overall very enjoyable game for those who like good plot, and JRPG's in total.. This game has so much promise but is ultimately pretty awful and the devs need to do a lot more before they should feel OK about asking for money for this. It's a good idea for a game. The options are basically nonexistent. For those of us (me) who rely on those options sometimes it can be actually unplayable. Bad turn speed, floaty drifty movement, fluttery jumps, bad balance of light and dark, gliding falls, you don't stop entirely when you let go of the keys... I could go on. Many people complain about this to the devs but apparently not getting a response from them is pretty normal. I asked for a refund. Do not get. A few good sound effects and textures aren't a game. It's just disappointing.. Have played the free version now for 3 days. It is simply brilliant. So much to do and places to see. I can't believe no one is supporting this game. Today I am purchasing it to give me a wider scope. Can't wait. Do try this game and do not be put off that it is in the night time mode. You will get use to it.
Are there any other games you have done?

In the demo game I am on Level 56. How do you put the saved game into this new purchased game from Steam???

Fun so far, and appropriately priced!. Fun game. Build, fight and survive. Made by the creator of diablo and diablo 2.. I am enjoying the third installment of the Geneforge saga. However, I am tiring of the "same song, different tune" story that is going on.

Geneforge 1:

You are trapped on an island in bum-hick nowhere with intruders. You have to either join the factions or fend them off. Pick sides, escape, and "win" the game.

Geneforge 2:

You are inspecting this bum-hick nowhere shapper area and quickly discover things are not what they seem. Find out that there are different factions. Either join them or fend them off. Pick sides, escape, and "win" the game.

Geneforge 3:

You are trapped on a series of islands where there is a rebellious shaper on the loose. Either join them or fend them off. Pick a side, escape, and "win."

Now, I know that there is a different plot in the later games since I read ahead. Yet, the same plot is becoming stale. Don't get me wrong, I enjoy the game and some of the new mechanics that came with it, but the story, in my opinion, is lacking.

7V10

- Love the graphics
- Love the game series
- Makes me think about the future of the story
- Makes me think in general (many games do not)
- Story is a bit stale
- Little sound effects
- New game mechanics. This game could greatly benefit from a steam workshop, the glaring lack of decoration items forces me to fill my zoos with bear statues to keep guests happy. I'm not too fond of the food supply system in the previous games, glad they got rid of that. I'd recommend this game if you enjoy similiar titles, but it isn't nearly as engaging as it could be. The lack of freedom and the rigidity of the game's UI really hold it back.. nice simulation human :). Wont load fsx after install. DO NOT BUY!!. the game is not like i remember it from when i was a kid

. MacBook Pro Users:

We have spent a lot of time locating as many Apple Mac devices as we can find to test the game on, and from our testing, the game appears to run perfectly fine on Apple OS.

However, due to the graphical capabilities of Apple Mac book Pros, we recommend that you lower the settings to as low as possible to help speed up the loading process.

We are still working on optimisations for the game, but would like to note that a lot of issues reported are due to end user machine specification capabilities.

We will continue to be in touch with more information as we receive it.

Thanks
